

ICAO

TRAINING

2020 CATALOGUE

— TRAINAIR PLUS —

PROVIDING A FULL SPECTRUM OF TRAINING SOLUTIONS

Assessments | Design and Development | Training Needs Analysis
Courses | Members & Partners | Training Services

Please note that the contents of this course catalogue is comprised of training packages validated as of 5 November 2019.

This catalogue will be updated on an bi-annual basis.

For up-to-date information, please visit the ICAO Global Aviation Training website at www.icao.int/training.

TABLE OF CONTENTS

Global Aviation Training Activities	4
TRAINAIR PLUS Programme (TPP) Membership	5
Global Presence	6-7
ICAO Courses Search Mechanism	8
ICAO Training Portfolio	9
Partnerships	10-11
Tools & Methodologies	12-13

Flight Safety and Safety Management	39-48
Security and Facilitation	49-54
Training Competency Development	55-58

GLOBAL AVIATION TRAINING ACTIVITIES

ICAO Global Aviation Training, under the Technical Cooperation Bureau, undertakes the following activities:

Training Assessments

- Conduct of assessments of training organizations in line with International Civil Aviation Organization (ICAO) guidance material to help enhance, streamline and modernize their training operations.
- Provision of support services in training.

Training Design and Development

- Design and production of ICAO courses.
- Validation of ICAO-recognized training packages.
- Qualification of Course Developers, Course Instructors, Subject Matter Experts, and Course Validators.

TRAINAIR PLUS Programme (TPP)

- Establishment of a network of ICAO-recognized training centres, international organizations, and academic institutions delivering ICAO training.
- Implementation of a standardized methodology to develop competency-based courses, share over 200+ courses listed in a comprehensive catalogue, and deliver ICAO training.
- Developing and sharing over 200+ courses.

Training Services

Provision of the following Capacity Building Services:

- Training Needs Analysis
- Training and Procedures Manual (TPM)
- Training Quality System (QS)
- Post Training Evaluation
- Establishment of a Training Organization

TRAINAIR PLUS™ PROGRAMME MEMBERSHIP

The TRAINAIR PLUS Programme (TPP), ICAO's network of training organizations and industry partners, encompasses aviation training in all ICAO's Strategic Objectives with the goal of improving the safety and efficiency of air transport. The TPP is open to all training organizations and operators, provided they are recognized or approved by their respective governments. The network consists of the following four categories of membership:

Associate Members

- ICAO recognition
- Host the delivery of ICAO-recognized courses

Full Members

- ICAO recognition
- Develop a Standardized Training Package (STP)
- Host the delivery of ICAO-recognized courses

Regional Training Centres of Excellence

- ICAO recognition
- Develop an ICAO Training Package (ITP)
- Host the delivery of ICAO-recognized courses
- Regional training implementation

Partners

- ICAO recognition
- Develop Partnership Training Package (PTP)
- Delivery of PTP

Benefits of the Programme

- Obtain ICAO recognition aligned with its requirements.
- Exclusive access to a virtual library and sharing platform of ICAO-recognized trainings.
- Develop and/or host ICAO-recognized trainings.
- Expand your outreach to attract trainees internationally.

Who can join the Programme?

- Training arms of Civil Aviation Authorities (CAAs), airlines, airports, and maintenance organizations.
- Private training organizations.
- Training centres, international organizations and universities involved in any specialized aviation-related training to support the implementation of ICAO Standards and Recommended Practices (SARPs).

GLOBAL PRESENCE OF THE TRAINAIR PLUS™ Programme

A network of over 100 training organizations, academic institutions, and other international organizations delivering ICAO training.

100+
**MEMBERS
& PARTNERS**

ICAO's TRAINAIR PLUS Programme promotes training collaboration and standardization for the purpose of providing safe, secure, and sustainable development of global air transport.

TRAINAIR PLUS Members are part of a worldwide network that develop and exchange high-quality standardized aviation training materials for the benefit of all members.

MEMBERSHIP BENEFITS

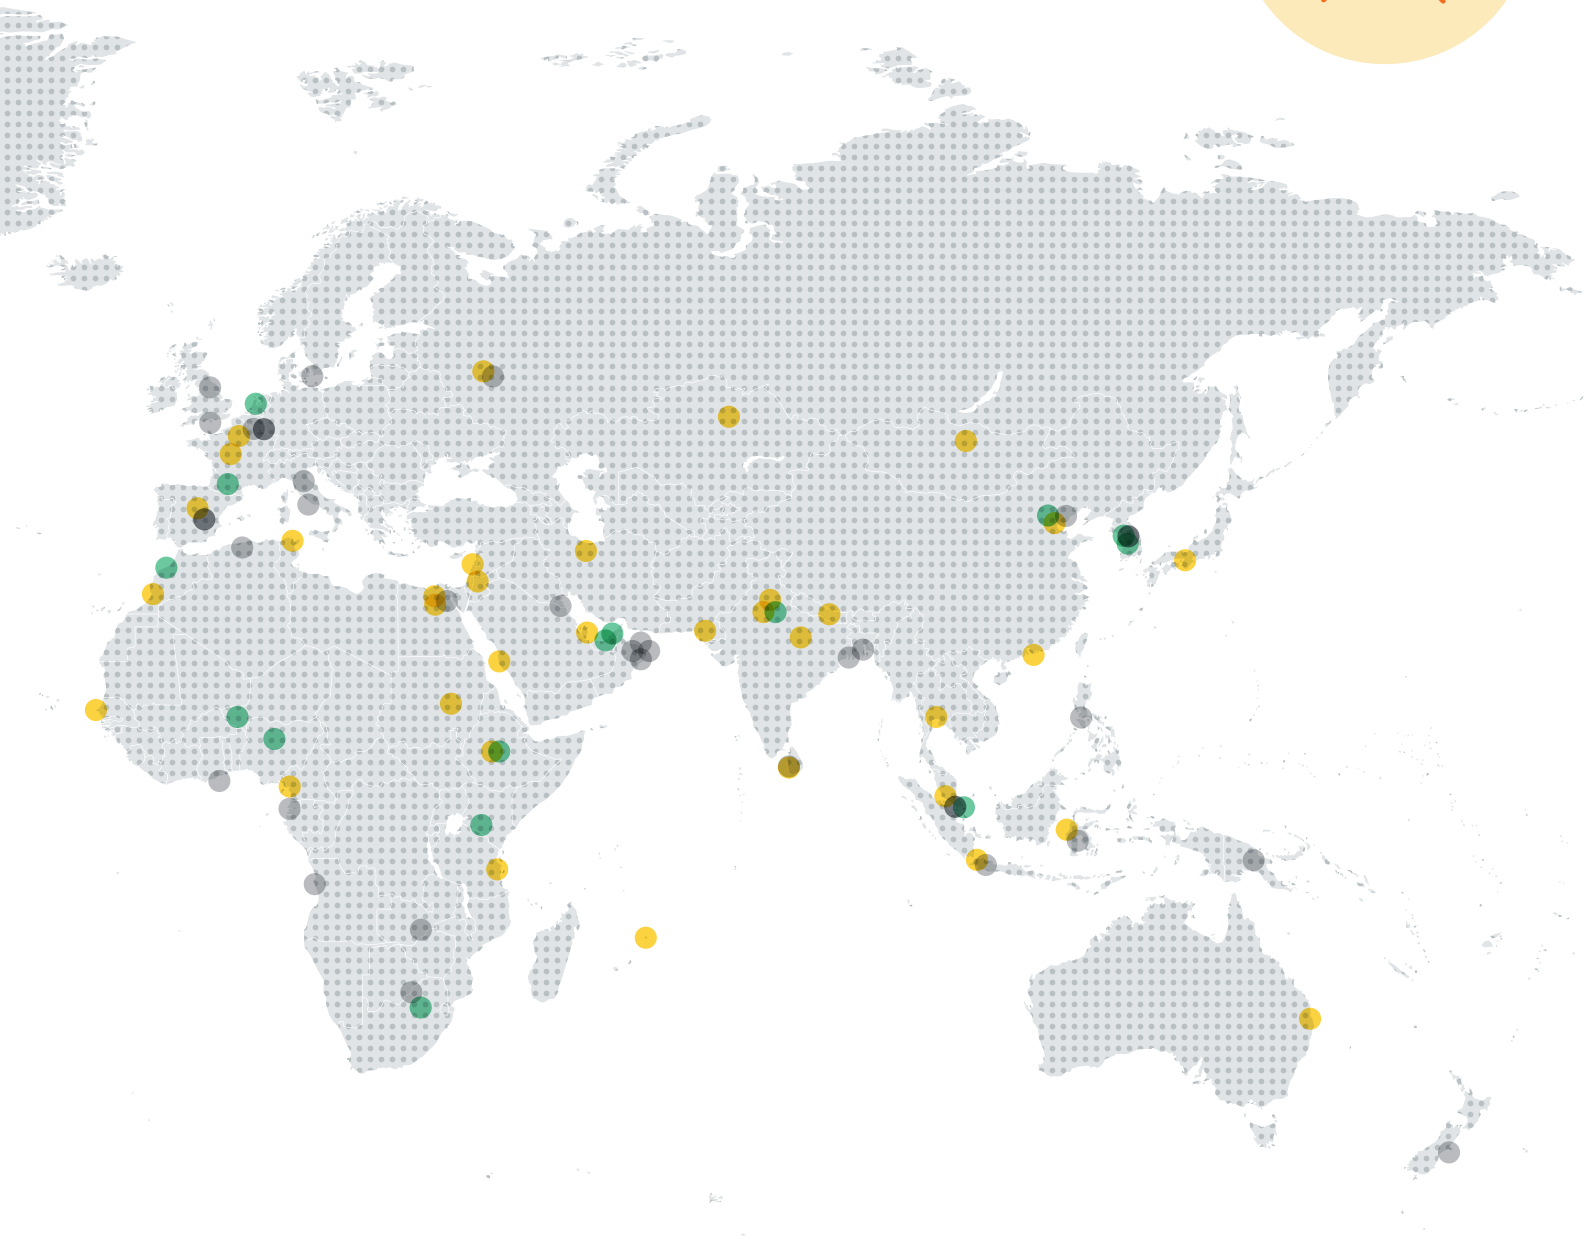

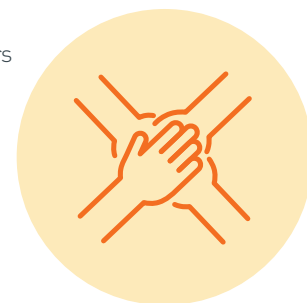

**ICAO
RECOGNITION**

**COLLABORATION
AND PARTNERSHIPS**

● Associate Members ● Full Members ● Regional Training Centres of Excellence ● Partners

**QUALIFICATION OF
TRAINING PROFESSIONALS**

**ACCESS TO A VIRTUAL
LIBRARY OF 200+ COURSES**

ICAO COURSES SEARCH MECHANISM

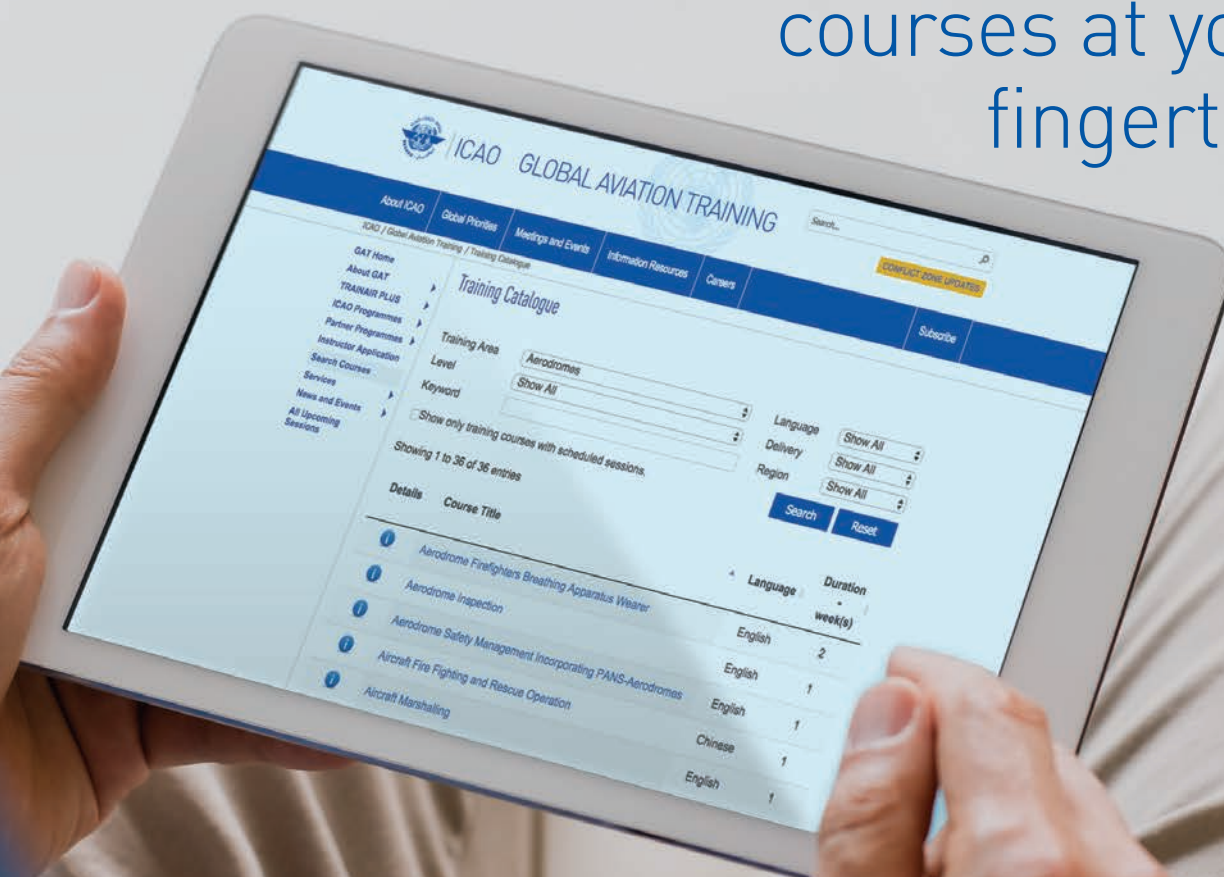

The ICAO courses search mechanism comprises over 200 training packages in nine subject areas, including Aerodromes, Air Navigation Services, Air Transport, Aviation Law, Environment, Flight Safety and Safety Management, Security and Facilitation, Training Competency Development and Aviation Management.

ICAO courses are available in classroom, online or blended format. Course deliveries can take place in the premises of ICAO Headquarters or Regional Offices, TRAINAIR PLUS Members, or other facilities.

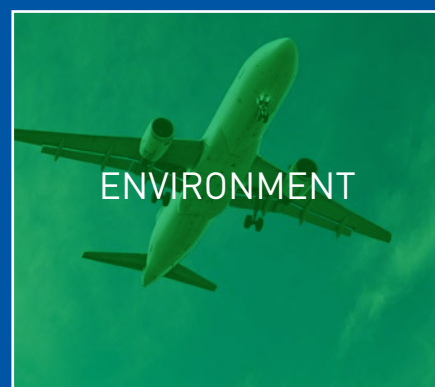

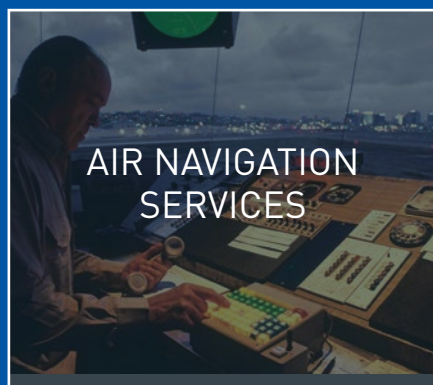

Search for courses in 4 easy steps:

- 1- FILTER multiple training criteria
- 2- Fast & easy SEARCH by Training area, language, delivery type, regions and keywords.
- 3- FIND scheduled training sessions worldwide
- 4- REGISTER online!

200+
courses at your
fingertips

ICAO COURSES ARE AVAILABLE UNDER THE FOLLOWING NINE SUBJECT AREAS:

Browse the ICAO Training search mechanism available on
ICAO's Global Aviation Training website at www.icao.int/training.

PARTNERSHIPS

ICAO is pursuing training partnerships with the aim of establishing agreements in all regions in order to enhance the competencies and skills of current and future aviation professionals. To this end, the ICAO Global Aviation Training Office (GAT) is actively working with international organizations, academic institutions (universities), and the aviation industry to develop and deliver joint aviation training programmes under the auspices of the TRAINAIR PLUS Programme (TPP).

As per the TRAINAIR PLUS Operations Manual (TPOM) (Doc 10052), upon joining TPP as a Corporate Partner, an institution can develop and deliver a Partnership Training Package (PTP) to respond to national, regional and global training needs, as well as support the implementation of ICAO SARPs and aviation global plans.

INTERNATION ORGANIZATIONS

In order to expand global outreach of ICAO training, ICAO has partnered with relevant aviation International / National Organizations around the world to develop and deliver training.

ACADEMIC INSTITUTIONS

This Partnership category is specifically addressed to academic institutions, such as Universities which provide aviation programmes and other academic institutions that wish to develop and deliver aviation-related training programmes or certificates jointly with ICAO.

JOHN & MOLSON
SCHOOL OF BUSINESS

Executive Centre

EMBRY-RIDDLE
Aeronautical University

UNIVERSIDAD
NACIONAL DE
SAN MARTÍN

Instituto del
Transporte

UNIVERSITY OF
WATERLOO

SCHOLARSHIPS

To provide greater access to training, GAT established a scholarship allocation procedure for ICAO Training Packages to support States in the implementation of SARPs.

These scholarships cover course tuition fees and are provided to eligible trainees originating from States who are endeavouring to either meet or maintain their Effective Implementation (EI) rates in the context of capacity-building efforts within *No Country Left Behind* (NCLB) initiative.

TOOLS & METHODOLOGIES SUPPORTING AVIATION TRAINING

ICAO Training products and services are the foundation to evolve training, pointing the way to the integration of new training technologies and techniques. The following tools and methodologies are offered to TRAINAIR PLUS Members in order to enhance their training and improve service delivery.

Training Development Guide (TDG)

ICAO's *Training Development Guide* (Doc 9941) details the competency-based training methodology to be used to achieve the systematic preparation of TRAINAIR PLUS Standardized Training Packages (STPs). Doc 9941 also serves as the handbook for standardizing all training course development activities within the TPP.

TRAINAIR PLUS Electronic Management System (TPEMS)

TPEMS is an effective, user-friendly and continuously available web-based suite of applications for membership application process, development of ICAO recognized training packages, hosting of ICAO courses, course library and exchange, production of certificates, rosters of qualified experts, trainee questionnaires and online registrations.

Training Needs Analysis (TNA)

The TNA tool provides aviation organizations working with ICAO with support in identifying and addressing human performance improvement needs through training and development.

Post-training Evaluation (PTE)

The PTE tool allows to quantify and qualify the impact of the training delivered on the job performance in order to continuously improve courses and instructional processes.

Learning Management System (LMS)

To better support the evolution of online courses, a robust LMS is available to host and manage online course development and deployment. This will help ICAO reach a wider target audience by engaging trainees who have limited access to classroom training.

Aviation Training Intelligence (ATI)

The management of ATI works as a cycle where the collection of safety, security, and air transport data is used for training needs analysis. GAT will continue to build and implement these components and train training centre managers to optimize ATI for their organizations.

Training in figures

Since it's launched in 2010, the TRAINAIR PLUS Programme has delivered more than:

1650 courses
to over **20000** trainees
in **100+** States

ICAO ONLINE COURSES IN A NEW LMS

Learning takes place anytime and anywhere.

ICAO's new Cloud-powered Learning Management System (LMS) will support evolving learner needs, boost new learning experiences, and promote continuous learning. As an engine, it will facilitate the delivery and evaluation of ICAO online courses. The new LMS will serve as a fundamental component to enhance and transform interactive learning experiences, and provide exciting, engaging opportunities to learn using mobile learning and gamification.

For more information, please visit www.icao.int/training.

ENGAGING
EXCITING
INTERACTIVE

FUTURE OF ICAO TRAINING

A silhouette of a person wearing a hat and holding a suitcase, standing by a large window. The person is looking out at a modern building with a distinctive white, curved, shell-like architecture. The scene is bathed in a warm, orange light, suggesting a sunset or sunrise. The person's reflection is visible on the polished floor.

The increasing pace of innovation throughout the aviation industry, and the great potential it holds, has a direct impact on training activities worldwide. The long-term plan for ICAO training will be to explore innovations that are modifying the way we develop and deliver training, and to move beyond conventional classroom training, integrate new strategies, new technologies, and develop an “innovation mindset”.

ICAO will prioritize its efforts on the implementation of innovative tools and methodologies, in order to assist Member States in making informed training management decisions, improving training plans, and developing competency-based programmes to meet short- and long-term performance needs.

ICAO will also focus on expanding learner-centered pedagogies, incorporating the latest innovations to make ICAO training more accessible globally.

PARTAKE IN THE DEVELOPMENT OF ICAO COURSES

Members of the TRAINAIR PLUS Programme obtain expertise and technical support to develop and deliver training packages produced in accordance with a competency-based methodology, based on the ICAO *Training Development Guide, Competency-based Methodology* (Doc 9941), or an equivalent Instructional Systems Design (ISD) methodology. Each training package contains necessary instructional materials for trainees and instructors. Members can develop the following training packages:

ICAO Training Package (ITP)

An ITP is a training package produced by ICAO or a Regional Training Centre of Excellence (RTCE), in accordance with the ICAO *Training Development Guide, Competency-based Methodology* (Doc 9941) or an equivalent ISD methodology.

Compliant Training Package (CTP)

A CTP is a training package that complies with ICAO Standards and Recommended Practices (SARPs) and guidance material. It is presented as a fully documented and tested comprehensive package of training material that reflects:

- the current technological and operational requirements specific to a particular training topic;
- ICAO SARPs, Annexes and guidance material; and
- ICAO training objectives, complements existing ICAO training, and makes a significant contribution to aviation capacity building.

Partner Training Package (PTP)

A PTP is training material produced in partnership between ICAO and the training arm of a Corporate Member, industry partner, or educational institution, in accordance with the ICAO *Training Development Guide, Competency-based Methodology* (Doc 9941).

PTPs are presented as fully documented and tested comprehensive packages of training material that comply with ICAO SARPs and policies, help achieve ICAO training objectives, complement existing ICAO training, and make a significant contribution to aviation capacity building.

Standard Training Package (STP)

An STP is a competency-based training package produced in accordance with the ICAO *Training Development Guide, Competency-based Methodology* (Doc 9941). It is self-contained, material-dependent, and validated by the TRAINAIR PLUS Programme. The package includes instructor material, trainee material, as well as relevant documents on how the course was developed.

Why do training centres develop training packages?

Developing STPs, ITPs, CTPs or PTPs will allow training centres to:

- benefit from the recognition by ICAO as having implemented a competency-based training approach to course development;
- contribute and exchange training packages with other TPP Members, thereby considerably reducing their course fees; and
- generate revenues from the sharing of their training packages.

AERODROMES

1

APRON MARKINGS MANAGEMENT

RTCE ITP
ITP/R/AGA/AMM/007E

Delivery Classroom

Language English

Duration 3 days

Course Description This course provides the apron management personnel with necessary knowledge, skills and attitudes to ensure that the apron markings management is conducted effectively and efficiently, according to the ICAO Annex 14, Volume 1 and Doc 9157 Aerodrome Design Manual, Part 2 and Part 4.

Developed by Capital Airports Management Academy

AERODROME SAFETY MANAGEMENT INCORPORATING PANS-AERODROMES

RTCE ITP
ITP/R/AGA/SMS/004E

Delivery Classroom

Language English

Duration 5 days

Course Description This course will provide safety management systems (SMS) safety managers with necessary knowledge, skills and attitude to implement and maintain an effective safety management system at an aerodrome, in accordance with ICAO Procedures for Air Navigation Services (PANS) - Aerodromes (Doc 9981) as stipulated in ICAO Annex 14 — Aerodromes, Volume 1 and in ICAO Annex 19 — Safety Management.

Developed by Incheon Airport Aviation Academy (IAAA)

ICAO-ACI AERODROME CERTIFICATION

PTP
PTP/005E

Delivery Classroom

Language English

Duration 5 days

Course Description Many international airports are yet to be fully certified and many that are certified are unable to apply the Standards and Recommended Practices (SARPs) as laid out in ICAO Annex 14 — *Aerodromes* and the *Manual on Certification of Aerodromes* (Doc 9774). The objective of this course is to provide airport operators with the knowledge and skills required to practically apply and maintain the aerodrome certificate.

Developed by Airports Council International (ACI) & International Civil Aviation Organization (ICAO)

ICAO-ACI AIRPORT USER CHARGES

PTP
PTP/004E

Delivery Classroom

Language English

Duration 5 days

Course Description This training course is based on the application of ICAO's policies on user charges. The course uses a blended learning approach combining an e-learning component followed by a workshop component. This course, which is jointly delivered by Airports Council International (ACI) and ICAO, reviews the main recommendations adopted by the Conference on the Economics of Airports and Air Navigation Services (CEANS), held in Montreal in September 2008; the ninth edition of *ICAO's Policies on Charges for Airports and Air Navigation Services* (Doc 9082), which was published in 2012; and the third edition of the *Airport Economics Manual* (Doc 9562), which was published in 2013.

Developed by Airports Council International (ACI) &
International Civil Aviation Organization (ICAO)

ICAO-ACI IMPLEMENTING ANNEX 14: ADVANCED AERODROME DESIGN AND OPERATIONS

PTP
PTP/AGA/AAD0/007E

Delivery Classroom

Language English

Duration 5 days

Course Description The goal of the course is to enable the target audience to support the implementation of the ICAO Annex 14 in their aerodromes to achieve compliance. This classroom course will provide case studies on existing locations throughout the world to enable trainees to practice implementation activities of Annex 14. The course will make use of relevant ICAO documentation such as PANS Aerodrome and will prepare trainees for the ACI-ICAO Aerodrome certification course.

Developed by Airports Council International (ACI) &
International Civil Aviation Organization (ICAO)

ICAO-ACI GLOBAL REPORTING FORMAT (GRF) - ONLINE COURSE

PTP
PTP/AGA/GRF/008E

Delivery Online

Language English

Duration 3 hours

Course Description The Global Reporting Format (GRF) online course has been developed by ACI and ICAO to assist airport personnel to meet the new ICAO requirements for runway surface condition assessment and reporting that come into effect in November 2020, as outlined in ICAO Circular 329, Assessment, Measurement and Reporting of Runway Surface Conditions, and ICAO Doc 10064, Aeroplane Performance Manual (APM).

Developed by Airports Council International (ACI) &
International Civil Aviation Organization (ICAO)

AIR NAVIGATION SERVICES

2

PERFORMANCE-BASED NAVIGATION (PBN) AIRSPACE DESIGN

ITP
ITP/ANS/PBN AD/022E

Delivery Online

Language English

Duration 2–4 hrs

Course Description The PBN concept represents a shift from sensor-based to performance-based navigation. PBN routes and procedures are designed to meet a navigation specification, which is defined in terms of accuracy, integrity, availability, continuity, and functionality for the proposed operations in the context of a particular airspace. Personnel involved in airspace design need to understand the PBN concept and how it can be used to improve an existing airspace structure.

Developed by International Civil Aviation Organization (ICAO)

PERFORMANCE-BASED NAVIGATION (PBN) OPERATIONS APPROVAL

ITP
ITP/ANS/PBN OPS/021E

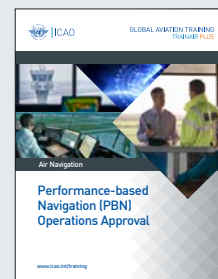

Delivery Online

Language English

Duration 2–4 hrs

Course Description The Performance-based Navigation (PBN) concept represents a shift from sensor-based to performance-based navigation. PBN routes and procedures are designed to meet air navigation specifications, which is defined in terms of accuracy, integrity, availability, continuity, and functionality for the proposed operations in the context of a particular airspace. Commercial air transport operators need to have an operational approval to fly PBN routes and procedures.

Developed by International Civil Aviation Organization (ICAO)

PERFORMANCE-BASED NAVIGATION (PBN) OVERVIEW

ITP
ITP/ANS/PBN OVERVIEW/020E

Delivery Online

Language English

Duration 2–4 hrs

Course Description This course provides a high-level overview of the Performance-Based Navigation (PBN) concept and principles. PBN represents a shift from sensor-based to performance-based navigation. PBN routes and procedures are designed to meet a navigation specification, which is defined in terms of accuracy, integrity, availability, continuity and functionality for the proposed operations in the context of a particular airspace.

Because PBN implementation impacts all areas (aircraft operations, regulatory approvals and authorizations, training, instrument flight procedure design, airspace design, aircraft separation, etc.), understanding the PBN concept and principles becomes essential for all aviation stakeholders. Therefore, this course is the necessary prerequisite to understand PBN and for further PBN training.

Developed by International Civil Aviation Organization (ICAO)

PERFORMANCE-BASED NAVIGATION (PBN) FOR AIR TRAFFIC CONTROLLERS

ITP
ITP/ANS/PBN ATC/023E

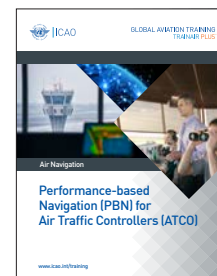

Delivery Online

Language English

Duration 2–4 hrs

Course Description As the number of PBN procedures increase, changes are required to ATCO training to ensure that the air traffic controllers are aware of the new PBN concept and the on-board Area Navigation (RNAV) or Required navigation performance (RNP) system capabilities, in order to determine whether the performance of the RNAV or RNP system is appropriate for the specific airspace requirements.

Developed by International Civil Aviation Organization (ICAO)

PERFORMANCE-BASED NAVIGATION (PBN) FOR PILOTS

ITP
ITP/ANS/PBN PILOTS/024E

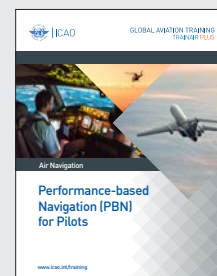

Delivery Online

Language English

Duration 2–4 hrs

Course Description This course provides an overview of the Performance-Based Navigation (PBN) concept and principles, and provides pilots with guidance on procedures for PBN operations.

Developed by International Civil Aviation Organization (ICAO)

ATM INCIDENT INVESTIGATION TECHNIQUES

RTCE ITP
ITP/R/ANS/ATMII/005E

Delivery Classroom

Language English

Duration 5 days

Course Description This course will provide participants with the necessary knowledge, skills and attitude to participate in and support formal ATS occurrence and Safety Management Systems (SMS) investigations in an ATC workplace environment, specifically for investigating ATM incidents, in accordance with Annex 13 — Aircraft Accident and Incident Investigation, Air Traffic Services Planning Manual (Doc 9426) and Manual of Aircraft Accident and Incident Investigation (Doc 9756).

Developed by GAL ANS Training Centre

For more information and registration, visit www.icao.int/training. TRAINAIR PLUS Members can purchase Training Packages through the TRAINAIR PLUS Electronic Management System (TPEMS). If you are not a TRAINAIR PLUS Member, please send your enquiries to aviationtraining@icao.int.

FUNDAMENTALS OF THE AIR TRANSPORT SYSTEM

PTP
PTP/FATS/003E

Delivery Online

Language English

Duration 20 hrs

Course Description

This course will provide fundamental knowledge and inspire individuals about the different fields of aviation as they consider their professional goals and career path. The following nine online modules cover diverse activities and regulations of civil aviation: air law, aircraft, operations, navigation, airports, security, environment, accidents, and safety. To complete the course without the exam (free of charge), please register at <https://www4.icao.int/learning/>. To complete the exam to earn a certificate, please go to the ICAO Store at www.icao.int/store.

AVIATION MANAGEMENT

5

GLOBAL ACI-ICAO AIRPORT MANAGEMENT PROFESSIONAL ACCREDITATION PROGRAMME (AMPAP)

PTP

Delivery Online & Classroom

Language English

Duration 6 courses over 3 years

Course Description AMPAP is an executive development programme for airport executives worldwide. Its six-course curriculum covers all functional areas of airport business and promotes adherence to the highest professional standards.

Courses:

- Aerodrome Certification — Classroom - 5 Days
- Airport User Charges — Classroom - 5 Days
- Management of Airport Security — Classroom - 5 Days
- Implementing Annex 14: Advanced Aerodrome Design and Operations (AADO) — Classroom - 5 Days
- Global Reporting Format (GRF) — Online Course - 3 Hours
- Global Reporting Format (GRF) for Runway Surface Condition Assessment and Reporting — Classroom - 3 Days

Developed by Airports Council International (ACI) and International Civil Aviation Organization (ICAO)

MANAGEMENT CERTIFICATE IN CIVIL AVIATION

PTP
PTP/MCCA/001E

Delivery Online & Classroom

Language English

Duration 6 weeks per certificate (3 Certificates)

Course Description This aviation-centric management programme is to enhance the competencies of qualified personnel in the civil aviation community while promoting best practices with ICAO's TRAINAIR PLUS Programme and global aviation training activities.

The programme will be taught at a level equivalent to that of a graduate business programme and will consist of three certificates: Strategic Management, Human Resources Management; and Business Planning and Decision-Making. Upon successful completion of these three certificates, participants will graduate with an Executive Certificate in Civil Aviation Management.

Developed by JMSB - Concordia University & International Civil Aviation Organization (ICAO)

AVIATION DATA-DRIVEN DECISION MAKING (AD3M)

ITP
ITP/FSM/AD3M/015E

Delivery Online & classroom

Language English

Duration Part 1: 15 hours - Part 2: 4 days

Course Description The AD3M course is designed to prepare aviation professionals to generate reports and interpret results for making effective decisions, managing risk and setting priorities for different civil aviation activities, operations, or procedures. The AD3M is a blended course consisting of two parts: Part 1: Fundamentals of Aviation Data-driven Decision Making (AD3M) online course explores the fundamental concepts behind data-driven decision making; Part 2: Application of Aviation Data-driven Decision Making (AD3M) classroom course applies the concepts to practical scenarios and real-life situations. The Part 1 online is available as a standalone course, however, it is a prerequisite to attend the Part 2 classroom course.

Developed by International Civil Aviation Organization (ICAO)

DANGEROUS GOODS – USING THE TECHNICAL INSTRUCTIONS FOR THE SAFE TRANSPORT OF DANGEROUS GOODS BY AIR

ITP
ITP/FSM/DGUTI/014E

Delivery Classroom

Language English

Duration 5 days

Course Description This course provides State employees with the knowledge and skills required to determine when a consignment of dangerous goods is classified, packed, marked, labelled, documented, accepted, handled and transported, in accordance with ICAO's Annex 18 – The Safe Transport of Dangerous Goods by Air and ICAO's Technical Instructions for the Safe Transport of Dangerous Goods by Air (Doc 9284).

Developed by International Civil Aviation Organization (ICAO)

ECCAIRS - EUROPEAN CO-ORDINATION CENTRE FOR ACCIDENT AND INCIDENT REPORTING SYSTEMS (ECCAIRS) END USER COURSE

ITP
ITP/FSM/ECCAIRS/010E

Delivery Classroom

Language English

Duration 5 days

Course Description The end-user course is aimed at participants who will input the safety data into ECCAIRS or interrogate the system for safety analysis purposes. This course covers Accident/Incident Data Reporting (ADREP) taxonomy, as well as hands-on experience of ECCAIRS as a tool used to code, enter, extract or analyze safety data.

Developed by International Civil Aviation Organization (ICAO)

ECCAIRS - EUROPEAN CO-ORDINATION CENTRE FOR ACCIDENT AND INCIDENT REPORTING SYSTEMS (ECCAIRS) TECHNICAL COURSE

ITP
ITP/FSM/ECCAIRS/009E

Delivery Classroom

Language English

Duration 5 days

Course Description

The technical course is aimed at those who will install and administer ECCAIRS from a technical point of view. This course covers the installation, setup, and management of the ECCAIRS system. The scope of the course enables system administrators and/or IT personnel to get acquainted with the system, perform the setup and configuration of their ECCAIRS installation, as well as to supply basic user support. This support includes the management of the security of the ECCAIRS installation, the adaptation of reports, the customization of the taxonomy and the adaptation of the user interfaces.

Developed by International Civil Aviation Organization (ICAO)

ICAO GOVERNMENT SAFETY INSPECTOR PERSONNEL LICENSING COURSE (GSI-PEL-18710)

ITP
ITP/FSM/GSI PEL/006E

Delivery Classroom

Language English

Duration 15 days

Course Description

This course is intended for CAAs involved in developing or upgrading their own State licensing or PEL systems. The course is intended to be taken as a group composed of personnel assigned to a CAA's PEL office. Participants are taught how to establish and maintain a CAA PEL office and consider various factors associated with obtaining services for the PEL system from an outside service provider. Participants will be instructed on how to develop knowledge tests for a licensing system and how to ensure the tests' validity. Participants will learn the licensing process from application to issuance of a license, in addition to procedures for validation or conversion of a foreign license and suspension or revocation of a license. Classroom exercises will provide practice in how to determine if an applicant is eligible for the license sought, and if the license applicant successfully completed the demonstrations required for a license. The course is based on the International Civil Aviation Organization's (ICAO) Standards and Recommended Practices (SARPs), Model Civil Aviation Regulations (MCARs) and technical guidance.

Developed by International Civil Aviation Organization (ICAO)

ICAO GOVERNMENT SAFETY INSPECTOR AIRWORTHINESS – AIR OPERATOR AND APPROVED MAINTENANCE ORGANIZATION CERTIFICATION (GSI-AIR-18701)

ITP
ITP/FSM/GSI AIR/007E

Delivery Classroom

Language English

Duration 15 days

Course Description This course covers the basic concepts and steps involved in certifying an approved maintenance organization and an air transport operator. Participants will be taught the five-phase certification process based upon ICAO Standards and Recommended Practices (SARPs) and Model Civil Aviation Regulations (MCARs). Part One covers Approved Maintenance Organization (AMO) Certification and Part Two covers Air Transport Operator Certification (AOC). During the course, participants will follow a “mock” maintenance organization and then a mock operator seeking certification throughout each phase of the certification process. Exercises will be conducted in which participants must evaluate excerpts of “mock” maintenance organizations and operator’s manuals. Participant exercises will also provide practice in evaluating observations of the maintenance organization’s and the operator’s demonstrations to ensure compliance with the MCARs and advisory material.

Developed by International Civil Aviation Organization (ICAO)

ICAO GOVERNMENT SAFETY INSPECTOR OPERATIONS – AIR OPERATOR CERTIFICATION COURSE (GSI-OPS-18700)

ITP
ITP/FSM/GSI OPS/005E

Delivery Classroom

Language English

Duration 14 days

Course Description This course covers the basic concepts and steps involved in certifying an air transport operator. Participants will be taught the five-phase certification process based upon the International Civil Aviation Organization (ICAO) Standards and Recommended Practices (SARPs) and Model Civil Aviation Regulations (MCARs). During the course, participants will follow a “mock” operator seeking certification throughout each phase of the certification process. Exercises will be conducted in which participants must evaluate excerpts of the “mock” operator’s manuals and observations of the operator’s demonstrations to ensure compliance with the MCARs and advisory material. This course was designed using the ICAO TRAINAIR PLUS course development methodology.

Developed by International Civil Aviation Organization (ICAO)

SAFETY MANAGEMENT

ITP
ITP/FSM/SM ONLINE/018E

Delivery Online

Language English

Duration 12 hours

Course Description

The course will provide State regulatory and administrative personnel involved in State Safety Programme (SSP) implementation and/or operation with the basic knowledge, skills, and attitude to advocate safety management systems (SMS) requirements and guidance material, as well as the acceptance/oversight of service providers' SMS. The course will provide service provider staff with the basic knowledge, skills, and attitude to implement, administer or participate in SMS operations.

Developed by International Civil Aviation Organization (ICAO)

*The Safety Management Online Course is a mandatory prerequisite for the classroom course of the Safety Management for Practitioners (SMxP).

SAFETY MANAGEMENT FOR PRACTITIONERS (SMXP)*

CTP
CTP/FSM/SMP/001E

Delivery Classroom

Language English

Duration 5 days

Course Description

The SMxP Course aims to provide qualified Safety Management System (SMS) and State Safety Programme (SSP) staff with a comprehensive application of operational safety management processes and practical examples on the use of IT tools to enhance efficiency and effectiveness of safety management activities.

Developed by International Civil Aviation Organization (ICAO)

In collaboration with SENASA

*The Safety Management Online Course is a mandatory prerequisite for the classroom course of the Safety Management for Practitioners (SMxP).

MANAGING COMPLIANCE WITH ICAO SARPS

ITP
ITP/MGT/MCIS/013E

Delivery Online and Classroom

Language EN, FR & SP

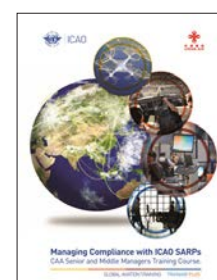

Duration 30 hours

Course Description

This course aims to enable CAA senior and middle managers to plan, manage and continuously monitor the implementation of ICAO SARPs in their States.

Developed by International Civil Aviation Organization (ICAO)

Funded by China South-South Cooperation Assistance Fund

UNIVERSAL SAFETY OVERSIGHT AUDIT PROGRAMME CONTINUOUS MONITORING APPROACH (USOAP CMA)

ITP
ITP/FSM/USOAP CMA/019E

Delivery Online

Language English

Duration 40–60 hrs

Course Description This training assists aviation experts to prepare for USOAP CMA activities. It highlights the essential content of the protocol questions, relating them to the associated ICAO documents, including the ICAO Annexes and associated guidance material in each audit area: personnel licensing and training (PEL), aircraft operations including dangerous goods (OPS including DG), airworthiness of aircraft (AIR), aircraft accident and incident investigation (AIG), air navigation services (ANS), aerodromes and ground aids (AGA), and primary aviation legislation & civil aviation regulations (LEG) and civil aviation organization (ORG). The material covered by this training is aligned with the Safety Oversight Audit Manual (Doc 9735).

Developed by International Civil Aviation Organization (ICAO)

IAASM-SAA POSTGRADUATE CERTIFICATE IN AVIATION MEDICINE FOR MEDICAL EXAMINERS AND ASSESSORS

CTP
CTP/FSM/MED/003E

Delivery Online and classroom

Language English

Duration 6.5 hours (online) 10 days (classroom)

Course Description This course (Part 1 and 2) will prepare participants to familiarize themselves with the roles and responsibilities of an aviation medical examiner and assessor through a curriculum that covers the competency framework published in the ICAO Manual of Civil Aviation Medicine as well as foundational knowledge of ICAO Annex 1 — Personnel Licensing, Standards and Recommended Practices (SARPs), and the aviation environment.

The course (Part 3, 4 and 5) will provide participants with practical experience of the aviation operating environment in order to appreciate its impact on human physiology and performance. Participants (primary target audience only) will be able to apply ICAO SARPs, perform effective licensing medical examination, critically evaluate medical documents and make medical fitness conclusions for ICAO Class 1, 2 and 3 medical assessments.

Developed by Singapore Aviation Academy

CONDUCTING A TECHNICAL ASSISTANCE VISIT TO A CAPSCA MEMBER STATES AND AIRPORTS

RTCE ITP
ITP/R/FSM/CAPSCA/008E

Delivery Online

Language English

Duration 32 hours

Course Description This course will provide participants with the necessary knowledge, skills and attitudes required to participate in the On-the-Job Training (OJT) to conduct technical assistance visit to a CAPSCA Member State and Airports.

Developed by Joint Aviation Authorities Training Organisation (JAA TO)

PERSONNEL LICENSING (PEL) SYSTEM COURSE

RTCE ITP
ITP/R/FSM/PEL/001E

Delivery Online and classroom

Language English

Duration 15 hours (online) 5 days (classroom)

Course Description This course will provide participants with essential knowledge, skills, and attitude to establish and manage an effective personnel licensing system.

Introduction (online) 1 hours,
Part 1 (online) 15 Hours,
Part 2 (classroom) 27 hours.

Developed by Singapore Aviation Academy

OVERSIGHT OF AIRCRAFT LEASING OPERATIONS

RTCE ITP
ITP/R/FSM/OALO/018E

Delivery Classroom

Language English

Duration 5 days

Course Description This course will provide required knowledge, skills and attitudes for States and airlines employees to implement operational procedures for acceptance, approval and oversight of aircraft leasing arrangements in accordance with Chicago Convention and its Annexes in particular Annex 1, Annex 6 Part I, Part II, and Part III and Annex 8.

Developed by Singapore Aviation Academy

SECURITY AND FACILITATION

8

AIR CARGO AND MAIL SECURITY COURSE

ASTP

Delivery Classroom

Language EN, FR, SP, RU & AR

Duration 5 days

Course Description To enable the target population to integrate knowledge of Standards and Recommended Practices (SARPs) into the context of their designated role in their organization as part of a national responsibility to secure air cargo and mail against acts of unlawful interference, in accordance with Annex 17 and the ICAO's Aviation Security Manual (Doc 8973 – Restricted)

Developed by International Civil Aviation Organization (ICAO)

AVIATION SECURITY MANAGEMENT COURSE

ASTP

Delivery Classroom

Language English

Duration 7 days

Course Description This course will train aviation security personnel at the managerial level to plan, coordinate, and implement the application of airport security preventive measures in accordance with approved programmes.

Developed by International Civil Aviation Organization (ICAO)

AVIATION SECURITY NATIONAL INSPECTORS COURSE

ASTP

Delivery Classroom

Language English

Duration 7 days

Course Description The course provides trainees with theoretical and practical knowledge of fundamental aspects of the audits and inspections as a part of a National Quality Control system. Trainees are provided with a standard methodology as well as specific techniques. The course is concluded by an exercise conducted at the airport.

Developed by International Civil Aviation Organization (ICAO)

AVIATION SECURITY NATIONAL INSTRUCTORS COURSE

ASTP

Delivery Classroom

Language English

Duration 7 days

Course Description In this course, graduates will be able to conduct Aviation Security (AVSEC) courses and be fully versed in the general application of training principles, the preparation of appropriate teaching aids, and the tailoring of course material to harmonize course objectives with local and national requirements. It is intended for any aviation personnel who require AVSEC instruction, guidance, and materials.

Developed by International Civil Aviation Organization (ICAO)

AIRPORT SECURITY SUPERVISORS COURSE

ASTP

	Delivery Classroom	Language EN, FR, SP, RU & AR	Duration 8 days
Course Description	To ensure that relevant personnel at airports can supervise and monitor the implementation of aviation security preventive measures through the application of the relevant competencies required for security supervisors. Participants of this course will be prepared to plan, coordinate and conduct quality control measures utilizing Annex 17 and ICAO methodology in accordance with approved programmes.		
Developed by	International Civil Aviation Organization (ICAO)		

CONTROL OF THE AUTHENTICITY AND VALIDITY OF TRAVEL DOCUMENTS AT AIRPORT BORDERS - LEVEL 1

ITP
190/093/MRTDEN INI

	Delivery Classroom	Language EN, FR, SP, RU, AR & CH	Duration 4 days
Course Description	This course will consolidate the competencies of front-line inspection officers from immigration and border control authorities to examine travel documents effectively, allowing them to expedite the movements of legitimate travellers while identifying high-risk individuals.		
Developed by	International Civil Aviation Organization (ICAO)		

ICAO – ACI MANAGEMENT OF AIRPORT SECURITY

PTP
PTP/006E

	Delivery Classroom	Language English	Duration 5 days
Course Description	This course provides guidance to aviation security personnel at a managerial level on planning, coordinating and implementing airport security preventative measures and pro-active initiatives that are in accordance with national programmes and airport industry best practices.		
Developed by	Airports Council International (ACI) and International Civil Aviation Organization (ICAO)		

ICAO-CONCORDIA UNIVERSITY AVIATION SECURITY PROFESSIONAL MANAGEMENT COURSE (PMC)

PTP

Delivery Online & Classroom

Language English

Duration 10 days (classroom) 10 weeks (online)

Course Description This blended course, developed in partnership between ICAO and Concordia University, which combines 2 weeks of classroom training and 10 weeks of distance eLearning, aims to develop an internationally recognized Professional AVSEC Manager.

MANAGING AVIATION TRAINING INTELLIGENCE (MATI)

ITP
ITP/TCD/MATI/012E

Delivery Classroom

Language English

Duration 5 days

Course Description This course aims to broaden the management approach of Civil Aviation Training Centre managers to practice decision-making based on managing all available aviation training intelligence. Consulting State master plans, organization analyses, evaluating training needs data, and post-training data to build the training centre portfolio and operational plan is critical to improve States' or regions' Universal Safety Oversight Audit Programme (USOAP) audit results and meet aviation growth projections with qualified personnel. Implementing an information and training management system is the key to effective management of aviation training intelligence.

Developed by International Civil Aviation Organization (ICAO)

POST-TRAINING EVALUATION (PTE) COURSE

ITP
ITP/TCD/PTE/008E

Delivery Classroom

Language EN & SP

Duration 5 days

Course Description This course will provide Civil Aviation Training Centre (CAT) personnel with the necessary knowledge, skills and attitude to implement the TRAINAIR PLUS Level 3 Post-Training Evaluation (L3 PTE) processes, measure the impact of delivered training on work performance, and enhance the quality of developed courses and implemented training processes.

Developed by International Civil Aviation Organization (ICAO)

TRAINING DEVELOPERS COURSE (TDC)

ITP
214/01/ICAO TDC

Delivery Classroom

Language EN, FR & SP

Duration 10 days

Course Description The Training Developers Course (TDC) is the core training activity of the TRAINAIR PLUS Programme. It is the main tool to consolidate the implementation of the Programme among Civil Aviation Training Centres (CATCs), through the creation of well-trained professional teams of course developers to work in their CATC Course Development Units (CDU).

The course will train civil aviation course developers to design and develop Standardized Training Packages (STPs) to TRAINAIR PLUS competency-based training methodology by either upgrading existing conventional courses developed by the CATC to become a STP or to create a new STP.

Developed by International Civil Aviation Organization (ICAO)

TRAINING INSTRUCTORS COURSE (TIC)

ITP
212/02/ICAO TIC

Delivery Online & Classroom

Language EN, FR & SP

Duration 30 hours online (EN)
5 days classroom (EN)
8 days classroom (FR & SP)

Course Description This course will enable participants to methodically prepare and conduct training courses in accordance with ICAO's instructor competencies and develop the required training strategies for course delivery. The TIC will train instructors to deliver STPs based on the TRAINAIR PLUS methodology, as well as conventional courses.

Developed by International Civil Aviation Organization (ICAO)

Part 1 training was developed in collaboration with: Joint Aviation Authorities Training Organisation (JAA TO)

TRAINING MANAGERS COURSE (TMC)

ITP
215/03/ICAO TMC

Delivery Classroom

Language EN & SP

Duration 4 days

Course Description The ICAO TRAINAIR PLUS Training Managers Course (TMC) addresses the operational aspects of managing an aviation training organization that meets the required standards of operation, training delivery, and quality management. It will enable the participants to apply the ICAO training organization assessment guidelines, in order to prepare their training organization to meet and maintain operational and quality standards for ICAO recognition.

Developed by International Civil Aviation Organization (ICAO)

VALIDATING COMPETENCY-BASED TRAINING (VCT)

ITP
ITP/TCD/VCT/004E

Delivery Classroom

Language EN & SP

Duration 5EE days

Course Description This course will provide training centres with internal validation capabilities for the development and evaluation of competency-based training.

Developed by International Civil Aviation Organization (ICAO)

STANDARDIZED TRAINING PACKAGE (STP)
